

Licensed # NR -30211376, Insured, Bonded

To Perspective Clients:

Thank you for allowing us to introduce you to Admire Care. We provide quality home health care services to seniors and those in need who wish to remain independent in their own homes or place of residence for as long as possible. Our services are provided by C.N.A's (Certified Nursing Aides), Home Health Aides (HHA) and Caregivers, as well as RN Case Management services. Our healthcare professionals are thoroughly screened and we perform extensive reference, criminal, and DMV checks.

Our services include errands, incidental transportation to doctors and other service providers, medication monitoring, light housekeeping and laundry. We can also provide personal care i.e. grooming, toileting, feeding, respite and much more. We are licensed by the Agency for Health Care Administration (AHCA) to provide home health care services and companion care services in Lake and Sumter counties in Florida.

One of the many concerns for seniors and their families is their dietary habits. We will work with the primary care doctor and dietitians to help address this concern for seniors and their loved ones at their request.

As the owners of Admire Care, we have our own personal stories about our parents and things that have positively affected their quality of life. We want to pass this positive experience on to others in need. We meet and assess each client personally at minimal to no cost to you. We're always available to all family members at all times by phone or email. We also make occasional in-home visits to clients to make sure we are meeting their expectations.

Please give us a call if you have any questions. We look forward to hearing from you. Our business and our passion is in making sure seniors are happy and feel safe while being able to remain in their own homes as long as possible.

Sincerely,

Admire Mercier RN, CCM, MBA
